

Greenex™ CSD-CL (COOLING SYSTEM DETOX FOR CLOSE LOOP)

For Prevent Scale Formation and Dissolve old Scale in Cooling System

Greenex™ CSD-CL Cooling System Detox for closed loop is an eco-friendly bio-chemical scale and corrosion inhibitor for steel , brass ,stainless and copper alloys.

Greenex™ CSD-CL Cooling System Detox for closed loop is the only effective biodegradable treatment program currently available in the market for "ON-LINE" Decaling in old dirty systems without interrupting production.

Greenex™ CSD-CL Cooling System Detox for closed loop also has a naturally derived neutralizer based on a proprietary herbal extract compound properties which can control the formation of biological growth and bio-fouling.

With regular and continuous **Greenex™ CSD-CL** Cooling System Detox for closed loop can prevent new depositions by keeping the cat ions and anions separated and remain dissolved in solution.

Benefits of Using Greenex™ CSD-CL Cooling System Detox for closed loop

- Improve heat Transfer
- Improve water Distribution
- System's efficiency Increase
- Reduce maintenance Costs
- Prolong the life span of equipment and parts
- Can replace a multiple chemical system
- Introduces a safer alternative to the users and the environment
- Readily biodegradable

Direction to Use

Products normal recommended dosage is at 500 ppm per 1m³ every 3 month, which may be fed into make - up water by suitable feeding equipments or manually at or before a point of high mixing intensity in the system. However, some concerning factors may be calculated prior to applications, such as hardness, alkalinity, TDS, SS, chloride content, temperature, pH etc. for more effective and economical dosage.

Package

Greenex™ CSD pack in plastic pail 25 liters and Plastic drum 200 liters.

Safety Information

GREEN Products not contain Lead (Pb), Mercury (Hg), Cadmium(Cd), Hexavalent Chromium (Cr6), Polybrominated biphenyls (PBB), or Polybrominated di-phenylether(PBDE) complying with the re-stricted substances listed in Article 4(1) of the RoHS Directive.

GREEN Products are also RoHS compliant for exports to European Union.
