

Greenex™ AFC

Air conditioner Fin and Coil Cleaning Fluids

Greenex™ AFC is a concentrate aqueous air-conditioner fin and coil cleaner. Based on the principle of non-ionic surfactants. The main ingredients are a proprietary plant extract. The surfactant in the product acts on the penetration through the dirt, dust and oils, it can be washed off easily with water, no pungent smell, no cough and bio-degradable. **Greenex™ AFC** utilizes the most user and environmentally friendly products.

Benefits

- Plant extract.
- Bio-degradable.
- No adverse affect on air-conditioner systems including fiber, seal and plastics.
- High effective cleaner.
- High security, no smell, non-volatile, non-flammable.
- Easily to eliminate.
- user and environmentally friendly products.
- • Compliance With ISO 14000, 18000

Direction to Use

Greenex™ AFC comes in concentrated form 1 part of products to 10 parts of water for general cleaning fin and coil. If fin and coil are so dirty, can increase concentrated form 1 part of products to 5 parts of water. The product is water based, allowed 10 minutes to working time. After that wash off with water and dry.
